

# UPDATE

## OUTREACH 2021 WITH VOICE IN THE CITY

I am convinced that every ministry, church, or person can go through three stages in their faith – either they pioneer, see growth and change, or they are in maintenance mode where their spiritual level is merely maintained.

Thirdly, they can start to lose what they had by losing focus. To me it is important that there is growth, change and development regardless of our circumstances. Our methods might have to change but the message remains the same whether it gets preached from a pulpit or via

the internet – Jesus saves, heals, and sets free!

I am glad to announce that despite a world-wide pandemic and numerous restrictions, our ministry grew and developed!

**Did you know?**

## I started a prayer school and weekly online teachings called “Where Eagles Fly”.

Instead of slowing down during the long-lasting Covid-19 pandemic, the Voice in the City team pressed in and launched a series of online teachings that can be watched on our Voice in the City TV YouTube channel for free.

**Visit**

[www.youtube.com/VoiceintheCityTV](http://www.youtube.com/VoiceintheCityTV)

to access all these amazing resources!

I am excited to announce that since the beginning of the “lockdowns” in April 2020, we have reached approximately 77 000 people across 24 nations with our Voice in the City online teachings. This does not even include the numerous Zoom meetings (sometimes up to three a day!) I did for different ministries. I preached all over the world without setting a foot on an aeroplane!

Did you know?

## Voice in the City launched RELEVANT

just to attend these meetings! This happens alongside the new, in depth Bible Course called TRANSFORMATION, which was launched by Rev. Gayle Claxton; a registered and qualified Assembly of God-minister. The fifth module is already in progress. If you are interested in the next module, please send us an email at [transformation@vitc.eu](mailto:transformation@vitc.eu).

Gayle, who I have been working with closely for 36 years and who is the co-founder of Voice in the City, is indeed a gifted teacher! Did Covid-19 stop us? Not in the least! People could perhaps not attend in person like before but via online platforms our ministry extended into so many different nations!

**A**youth gathering impacting and ministering to youngsters on their level! Before the German "lockdown", some participants travelled up to two hours

Did you know?

## Gayle released a book called "100 Devotions?"

**W**ritten from the experiences of the "mountains, valleys and revelations" of her own life. I had to laugh when I saw the surprise on someone's face when she heard that neither Gayle nor I take royalties from any of our material. Indeed, not one cent comes to us personally! It gets ploughed back into the ministry to reach souls – a commitment we made before God when we started Voice in the City 24 years ago.

Did you know?

## Gayle and I did special recordings for television broadcast purposes.

**W**hen some of our partners heard we were doing television recordings, they were suddenly alarmed. However, there is no need to fret – these recordings are multi-purposed for the use of training in Bible Schools and churches, as well as for TV broadcasts. I finally recorded 24 in-depth interviews where I tell my life story and combine it with God's dealings in my life

and sermons of God's Word. These recordings are filled with original footage from the past 42 years in ministry and will soon be available for purchase!

(Some television channels took this material and sponsored the airtime, resulting in our recordings being broadcasted at no cost whatsoever! Thank you, Jesus!)

You can also donate via  
Paypal. Thank you!

# The Love Papua Centre in Manokwari, Indonesia, prepared 6,151 (and still counting!) cooked meals to feed the poor during the Covid-19 "lockdown".

Just before Covid-19 struck, the Love Papua Centre team were impacting and teaching in 19 different schools! Have a Christian Youth Conference and you will end up with only Christian youth attending but go to schools and you will have children present from all walks of life! The Love Papua Team deems schools to be an incredible harvest field and a brilliant way to impact the next generation!

Furthermore, between 100 and 150 children from the impoverished sur-

rounding community were trained weekly in our Centre through several activities such as Bible Studies, Mathematics and Reading and Writing. The English course alone was accommodating 109 students! Did Covid-19 stop us? Not at all! We simply changed our methods and instead of having the children come to us, we went to them! The training and teaching continued at different outdoor locations, which allowed us to strictly adhere to all Covid-19 regulations. This, combined with a feeding program, was reach-

ing and training over 1,000 children who would have had no means to continue learning during the pandemic because online training is not a viable option in Papua, Indonesia.

# God arranged transformation and created a massive harvest despite severe poverty.

**T**he word “transformation” may sound great, but it takes more than good preaching, blessed prayer meetings, Bible training and a few committee meetings to see transformation happen! In January 2020 we launched an Agricultural Programme in a more rural area of Papua, Indonesia. The practical and technical agricultural training is

feed their families. In some cases, they could even feed their community and orphanages and provide fresh vegetables to some prisons and hospitals!

### Some of the projects for the future:

1. Currently I am busy writing my autobiography. We are hoping to launch this in January 2022 at Voice in the City's 25th anniversary.
2. We are expanding the weekly teachings to include a monthly GLOBAL PRAYER meeting, partnering with all our contacts across the globe!
3. Gayle will start putting her book, “100 Devotions” into short video teachings which will be available to watch on YouTube.
4. We are preparing an entire on-line curriculum for Youth and Children's Ministry in Manokwari, Papua, Indonesia.

5. Local outreaches are being planned with the mobile ministry truck that was donated to us, making it possible to minister at any location regardless of Covid-19 restrictions.

As you can see there is ample growth, impact and change but also wisdom and delegation. I thank God for Gayle Claxton who has been by my side for the last 36 years. She is a woman faithful in God's calling and work and trained by my own hand – a worthy successor would my time come to pass on the baton.

combined with spiritual input and although the participants work in the blazing sun and carry all the rocks to prepare the ground, it all starts with daily devotions.

Transformation took place in front of our eyes as these participants became entrepreneurs who witnessed

the growth of their own crops – and that in the midst of Covid-19! This empowered them to provide for and

I am deeply thankful for our team worldwide but also for you, our prayer partner, who stands so faithfully with us in prayer and financial support. We stand before God for our calling, but we rest on the pillars of prayer of our prayer partners. We are one in Christ, one in calling and one in vision – thank you for your partnership.

Together for the harvest
